## Experience

### NF Academy

Fullstack Web Developer - Independent Study

September - December 2025

## Education

### Sekolah Tinggi Teknologi Terpadu Nurul Fikri

Undergraduate (S1) | 3.98 / 4.0

Informatics Engineering

2023 - Now

<https://nurulfikri.ac.id/>

## Projects

### RelaOne - Volunteer Activity Manager

October - December 2025

- Designed the system architecture and relational database schema for the application.
- Contributed to UI design assets and created the application logo representing the system's core functionality.
- Performed functional testing to validate features and identify application bugs.
- Collaborated within a team environment and received positive feedback from examiners during the final project evaluation.

[RelaOne App](#)

### ITrack - UI/UX Design for Campus Activity Monitoring Platform

March - July 2024

- Designed a conceptual web platform to monitor campus and IT club activities.
- Developed an activity calendar to improve event discovery and tracking.
- Created a logo aligned with the application's purpose.
- Produced user personas, flows, and wireframes based on user research.
- Conducted usability testing with positive feedback on UI clarity.
